

**AKTUAL**

We carry out your projects

A team of experts  
that daily realises  
your projects and ideas.

The 'AKTUAL' project arose from the urge to identify all the non-industrial activities that the company Enervy Impianti srl performs daily.

The growing demand for structural, plant engineering and decorative services in both the civil and commercial areas led to the decision to split the company's internal competencies and implement the carpentry production service with the joinery, as well as the furniture and fittings design service.

## GENERAL CONSTRUCTION, INSTALLATIONS FURNISHINGS & MAINTENANCE

### **AKTUAL means updating ideas and plans**

construction, carpentry, special fittings, decoration, electrical, plumbing, home automation, alarm and video surveillance systems.

### **AKTUAL is abreast of**

fashions and the new frontiers of commercial, exhibition and museum design.

### **AKTUAL is a combination of professionalism and services**

aimed at the planner, designer or private customer who wishes to interface with a single reliable reality to realise their projects.

## THE PROJECT

# WORKSHOPS AND STORAGE AREAS

At the Druento (Torino - ITA) site there are two complete workshops for metal and timber processing. We can manufacture any type of product for furniture, building carpentry, fittings and industry.

We have covered areas for our productions and for supplying our construction sites, a yard for storing building materials, a hardware, electrical and plumbing warehouse to support our intervention teams.

# TRANSPORT AND LOGISTICS

For all our works, we have complete and fully operational company vehicles. We transport materials and equipment to all our construction sites in Italy and Europe.

On enquiry, we offer customised storage and logistics services.

An alliance between  
Energy and Aktual

GRW is a brand that identifies the alliance between Energy and Aktual, created to offer multiple services in the industrial, commercial, corporate and private sectors.

#### **THE STAFF**

The Alliance has a staff of more than 25 employees and professional partners. Through the 20 years' experience of its management and all its employees, it offers uncompromising quality services.

#### **THE HEADQUARTERS**

Two new carpentry and joinery workshops have been set up at the Druento headquarters. Storage and logistics areas complete the structure

#### **THE SUPPLY CHAIN OF OFFICIAL SUPPLIERS**

The Alliance is able to draw on primary suppliers and, in many sectors, directly from the parent companies. This enables it to offer quality service and products.

#### **THE VEHICLE FLEET**

The company's vehicle fleet is complete and constantly evolving. Our vehicles are maintained in perfect mechanical and aesthetic efficiency. For special vehicles we rely on trusted partners.

## GENERAL BUILDING

**Our renovation and general building service** includes the survey and design assessment of the works to be carried out, the calculation of costs and the scheduling of works and related payments.

On request, it is possible to ask for periodic monitoring and reporting of the work carried out through detailed reports.

Scheduled visits to construction sites with one of our managers at your disposal is possible.

On each open construction site, it will be available to carry out variants and requests for further work, outside the terms and conditions, which will be accounted for and quantified separately.

### END-WORK CLEANING

Upon request, at the end of the work, our construction sites are handed over to the customer with a **professional cleaning service** that will allow the immediate use of the spaces.

Floors, fixtures, doors, glass and glazing, furniture, stone and hard surfaces, sanitary ware and tapware, balconies, verandas, and courtyards.

Specific request for room sanitization is possible, especially for food service areas.

### INVISIBLE SERVICE

**Our teams operating** at hotels, residences, resorts, representative offices, clubs and institutional venues use an intervention system that guarantees the peace of mind of the facility guests and without interfering with the active company staff. In addition, all our movements within the facility take place with discreetness, silence, and extreme cleanliness.

## EQUIPMENT & FURNITURE

Our organization and the know-how of our technical managers, acquired through years of experience in the sector, allow us to propose a **design and realization service for spaces and furnishings** in line with the customer's design and economic expectations.

We design and produce all types of furnishings, museum, exhibition, commercial, modular furniture for shops and franchising chains.

Our service includes design, production, and assembly, even on the move, of structures and furniture.

We are one of the few realities capable of realising any type of set-up project from scratch, being able to count on a structure capable of carrying out building and plant works, mobilising and organising the necessary logistics in-house.

We work with metal, plastic, wood and agglomerate materials to support every design requirement.

## MAINTENANCE

We offer a **total maintenance service** for all residential, commercial and industrial types.

It will be possible to plan one-off or continuous interventions to guarantee continuous assistance all year round at favourable rates.

One of our appointees will carry out an inspection with the administrator, representative or owner of the building to highlight critical points of intervention and assess any rebuilding or repair work on the structures.

This will be followed by a proposal for a contract with a timetable for the interventions spread over the duration of the agreement.

### VIP PRICE - PALACE

For all civil buildings that will make use of our continuous service, the company will reserve for each **individual condominium owner**, who will request it, a **reserved and advantageous economic treatment** on any extra intervention at his or her home or premises.

### VIP PRICE - BUSINESS

For **all employees** of commercial and industrial activities that will benefit from our continuous maintenance service, we will grant them a **reserved and advantageous economic treatment** on any type of intervention at their private homes.
